The **Tuscany** collection, thanks to its timeless nature, will be one of those adorning the Valentini catalogue for years to come. Interestingly, its timeless character stems not only from the well-balanced, elegant design, but also – literally – from its durability. It is down to the raw material: high-quality leather, which makes wallets sturdy and compact. It is all crowned with a beautiful pressed belt decorated with the Valentini logo. **Tuscany** will therefore make a unique present. A timeless gift.

154 BLACK & RED DIAMOND

Black & Red Diamond is already the third Valentini-crafted series of a highly successful combination of red and black. The previous two collections enjoyed massive accolade among our Customers, who appreciated its modern, futuristic character. The refreshed line reflects a similar dynamic design, but moved up a level. Please note that this series' wallets do look cut, ground and polished, instead of combined. Our black and red diamonds. Obviously, the ones made of leather...

The **Camel** collection leans towards classic look and the best leather-making traditions. A simple form, strong emphasis laid on fine workmanship, and uniquely beautiful leather in the foreground, make up its strongest assets. All **Camel**-series wallets were crafted from the Italian leather of grained structure. This structure gives the wallets uncompromising and slightly raw features. Every single model is available in one of four warm colours: sabia, cognac, dark brown and black. Which one will you choose?

The inspiration behind the creation of the Valentini **Amber collection** was our designers' aspiration to link up tradition with the modern day look. Both women and men versions were refined by an elegant addition in the form of a Baltic amber drop embellished by silver hallmarked 925. The accessories are made of the saffiano leather enjoying exceptional properties. The wallets will be to the liking of everybody who appreciates a classical style in the modern form.

It has been a common belief that all goods, besides the fact of enjoyability, convey a message about their owners. What they are like, what they are after and what their interests are. But not the **QX** collection products – they actually scream out! **QX** is a fascinating palette of wallets addressed to the high-flying people. A stocky, elastic (stuffable and bendable) silhouette reflects the character. On the other hand, scheme-breaking orange linings build up the extravagant design. Scream out what you are like together with **QX!** And yet stick to elegance ...

100 Lucida

Here comes the most classic of all Valentini classic briefcase models. In here the history got encapsulated in immaculate Italian leather, and the style that will last forever. Models of similar nature used to support businessmen from Wall street and Madison Avenue in their daily routine 60 years ago. They will come close to new editions that will roll out a hundred years from now, as these briefcases are truly evergreen. Classic cut, amazingly glittering calf leather and a petite, simple lock account for their basic assets. Go for certainty, functionality and masculinity – our briefcases will be the fashion rage... always and forever.
